Town of Little Compton

40 Commons – P.O. Box 226
Little Compton, Rhode Island 02837-0226

To: Members of Little Compton Town Council

Date: February 20, 2026

From: Anya Rader Wallack, Town Administrator
John J McNamee, CPA Finance Director

CC: Heather Cook, Town Clerk

Subject: FY27 Proposed Town Administrator's Budget – Draft No. 2

Summary of FY27 Budget

We hereby present our recommended FY27 Budget (Draft No. 2 attached) to the Town Council for your approval for submission to the Town's Budget Committee. We summarize the details of this proposal below.

The FY27 Budget as presented is a balanced budget whereby revenues are estimated to equal budgeted expenditures at the end of the fiscal year.

Revenues increased over the FY26 Budget by \$985,421, a 5.55% increase. Expenditures excluding capital increased over the FY26 Budget by \$685,421, a 3.86% increase. If we include our proposed capital expenditures of \$300,000 in the budget, the total increase in expenditures are \$985,421, a 5.55% increase over the FY26 Budget.

Revenue detail:

Property taxes are projected to increase at 4.0% over the prior year's tax levy. This is adjusted by a collection rate of 98.3% based on the FY24 Tax Collector's Report. In addition, we project that we will collect \$375,000 in prior year taxes, plus estimated interest on past due taxes of \$100,000. The collection of prior year taxes and interest collected are based on historical information.

Revenue from State Resources includes motor vehicle phase out, tangible property tax exemption, hotel tax (including vacation and short-term rental fees), meals tax, library aid and Housing Aid from the recently refinanced School Bond. There was an increase of approximately \$75,000 in Housing Aid in FY27 because of the changes in the debt amortization schedule on the refinanced

School Bonds. All State Resources are based on projections received from the Department of Revenue and are included the Governor's Proposed State Budget for FY27.

Town Administration Fees are those collected by the Town Clerk for tax stamps, recording fees and other fees such as dump fees, etc. These amounts have been estimated by the Town Clerk based on historical collections of such revenue.

Building and other related fees are based on historical amounts and are reported net of any such fees that are due to the Little Compton Housing Trust. Most fees for permits are received through Open Gov, which provides the ability to obtain permits online and pay for such fees online as well. These fees will be remitted to the Town electronically every Monday going forward and we track the collection of this revenue monthly.

Finally, the Beach receipts have been estimated by the Beach Commission and have an equal offsetting expenditure for this projected revenue for the cost of operations of the Beach.

Expenditure details

Personnel expenses

Two of the major drivers of the increase in expenditures are salaries and health insurance for Town workers. In this proposal, all required salary increases have been included, according to the three Collective Bargaining Agreements (CBA) in place for FY27. All other salaries not covered by a CBA have been increased by 3.0%. Additionally, the FY27 Budget reduces one position in the Town Clerk's Office and one position proposed by DPW. The Police Department had originally proposed two new patrolman and two new recruit positions for FY27. Each of these positions has been reduced to only one new position in each based on discussions with Chief Raynes and the ability to be able to hire for these positions.

Employee insurance

Based on discussions with the RI Interlocal Trust, our health and dental premiums are estimated to increase by 10.0% and 5.0%, respectively. These assumptions are all built into this proposal. We do not anticipate receiving our actual premium increases until late March or early April.

Pension expense

The Actuary Report for July 1, 2025, is projecting a pension expense for FY27 of approximately \$337,000 as compared to the FY26 pension expense of \$524,000. In addition, approximately \$65,000 of the FY27 pension expense is for School employees; accordingly, **this amount will be charged to the School Department and will not be included in the Town's operating budget for FY 27.**

Debt Service

The debt service requirements for the School Bond increased by \$193,000 over the FY26 Budget. This was the result of a favorable reduction in principal debt payment for FY26 resulting from the refinancing of the School Bonds during the third quarter of FY25. The FY27 debt service has increased to levels more in line with years prior to FY26.

Departmental details:

General Government

General Government expenses are estimated to increase over the FY26 Budget by approximately \$96,000. There are cost increases in all categories to cover increases in wages and related payroll taxes.

A contribution of \$25,000 is being proposed for the LC Housing Trust. This contribution is in addition to that of 40% of the Building Permit revenue due to the LC Housing Trust.

There is an increase in the Town Administrator's salary line item of approximately \$50,000 to fund an appropriate salary and fringe benefits package to attract a replacement for the current interim Town Administrator.

The Town Clerk proposed hiring an additional person as clerk, to backfill for promotions. That would give them three people in that office. We recommend that we defer hiring for the Clerk's position in that office, given budget constraints and given that the finance and tax offices operate with one staff each. The overall savings associated with the third position in the Clerk's Office, including fringe benefits, are approximately \$80,000.

Information Technology

During FY26, the IT Department went from being outsourced to having a full-time IT Director. The associated added costs were covered by reductions in the Police budget and Finance Department budgets. The increases for FY27 are the necessary investments needed to maintain an effective technology department. Cyber security is a major concern for all businesses and municipalities are becoming a target. We needed to shore up our systems and provide additional controls to protect the assets of the Town. In addition, an aging infrastructure needs to be updated to allow for improved technology.

School – Town Appropriation

The preliminary FY27 Budget reviewed with the School Committee at last week's School Budget Workshop is calling for a 3.0% increase over the prior year Town Appropriation. This represents an increase of \$247,834. Under current State law, the School Committee may not propose a budget that requires more than a 4.0% increase over the preceding year's Town Appropriation. In addition, the Town has historically funded the pension expense for School employees on the

Town's pension plan. For the current year, we are proposing that the School absorb this annual cost of the pension expense for FY 27 and going forward out of their operating budget. This equates to savings on the Town's budget of approximately \$65,000.

Police

The Police reduced their original request by approximately \$143,000 by deferring the hiring of one patrolman and another recruit in FY27. Deferring these two hires they will operate with 10 personnel instead of 12 which had been agreed upon in the past.

Dispatch

Dispatch is showing a small decrease in their overall budget of approximately \$30,000. We considered outsourcing overnight dispatch services and explored that option with the Chiefs; however, IT and personnel obstacles made it difficult to accomplish for FY27.

Fire

Fire increases by approximately \$70,000, which represents an increase of approximately 4.0%. Due to minimum manning requirements, it is difficult to cover shifts without adding overtime. Accordingly, any absences for sick, IOD, vacation, etc. will require the use of overtime to fund these absences.

Department of Public Works (DPW)

The DPW includes wastewater, transfer station, highway department, DPW, Tree Warden, streetlights, Town Landing and IOOF 32 Commons. There is a projected increase in the FY27 Budget as compared to the FY26 Budget of approximately \$20,000. There were some major costs for wastewater in FY25 and there will be some ongoing costs necessary to maintain this system. In addition, a new hire was proposed by the DPW Director; however, it was determined that the current budget would not be able to sustain any new positions in this area.

Included in the Transfer Station FY27 Budget is \$35,000 for maintenance/improvements. We recommend increasing the price of dump stickers to help offset these costs. A one-time surcharge to minimize the impact of such costs is another option.

OPEB (Other Post Employee Benefits)

OPEB consists of two types of payments. The first and the costliest of the two is the payment of health and dental premiums for retired public safety employees until they qualify for Medicare. I We have been reviewing these payments and I have been able to remove certain former employees and their dependents who no longer qualify for this benefit.

The accompanying budget includes two additional contracts for potential retirees which has added approximately \$50,000 to this annual cost. These costs also increased by 10% for health premiums and 5% for dental premiums, consistent with the increase for active employees.

The second type of payment is for two agreements with former employees to pay approximately \$20,000 in total for life, and that is included in this line item as well.

Finance

There is a decrease in this budget for FY27 as compared to FY26 of approximately \$67,000. There are some new costs attributable to the sharing of a Human Resources Director with the School. The School currently employs an experienced and HR-educated HR Director who can add more value to the Town by providing her expertise town-wide. The current HR Director for the School not only handles HR at the School but also serves as an administrative assistant to the Superintendent and as a payroll clerk. The intention is to have our current payroll clerk for the Town also input the School payroll. This will add approximately \$20,000 to our current cost. We would reimburse the School a flat \$25,000 per year for HR services provided by the School. In essence, the HR function would serve all departments of the Town including the School.

The Finance Director intends to stay on through FY27 year which will allow him to catch up on some past issues but also put the financial operations back on track, creating the foundation for a smooth transition to his replacement. The Finance Director salary is set at \$75,000 per year.

The audit fee has been increased to \$50,000 and there is also another added \$25,000 on the School's FY27 Budget. We do not yet have a proposal for the FY26 audit which will be included in the FY27 Budget, but we should have something shortly. This number does represent a 50% increase in fees which I believe to be reasonable.

The Tax Assessor is proposing to promote her current clerk to a Deputy position and that has been provided for in the FY27 Budget.

Public Welfare

This budget consists of the salary for the Director plus the cost of a senior activity coordinator. In addition to the budget of \$73,700, there is a grant for approximately \$9,500 which can be used to help support the services provided. This revenue and any offsetting expenses are not included in the FY27 Budget.

Parks and Recreation

Parks and Recreation consist of maintenance of fields and courts, fireworks, community day, etc. as well as support for Wilbour Woods. There were no significant changes to the FY27 Budget as compared to the FY26 Budget.

The Beach is also included in this expense category. The Beach Commission has proposed a budget that consists of \$352,500 which includes \$30,000 for capital projects. They are also projecting receipts of approximately \$381,000, which is significantly higher than the FY25 actual and the FY26 Budget. I suspect the Budget Committee will be assessing the proposed budget so there have been no proposed changes made at this time.

Library

The library budget for FY27 has not increased significantly. Unlike in the past, the State Library funding is included in Total State Resources revenue, and the expenses reflect the gross expenditure, not net of the revenue.

Grants and Charitable

This amount has decreased from the FY26 Budget by approximately \$15,000.

Debt Service

Debt service increased in FY27 because of the refinancing of the School Bond in FY25. The refinancing which saved the Town over \$200K resulted in a one-time reduction in principal payments in FY26. FY 27 debt service for the School Bonds returned to previous levels.

Capital:

This budget proposal includes capital expenditures of \$300,000. In FY26, all capital expenditures were removed from the budget to minimize the needed tax increase to fund the structural deficit. In past years, the budget would contain approximately \$250,000 per year which would be set aside in the Capital Fund for any capital improvements.

General Operating Capital

The proposed capital expenditures are outlined in the attached budget and are projected to be approximately \$450,000. To maintain a balanced budget only \$300,000 could be charged to the FY27 Operating Budget leaving \$150,000 unfunded. The Town Capital Fund (Fund 420) has a current fund balance of approximately \$682,000. Included in this fund balance are two amounts appropriated at financial town meetings of \$250,000 and \$175,000 for pickleball court improvements. We have been informed by the Town Solicitor that if we want to use any portion of these funds, a vote at a future Financial Town Meeting must take place to reallocate their usage for general Town capital.

The Town Council has already committed approximately \$200,000 to \$225,000 of the reserved capital funds for fire code improvements at the Community Center, which would leave only \$32,000 of the \$682,000 available for Town capital projects. The major project included in the FY27 Capital Budget is \$275,000 for paving projects approved by the DOT and subject to a

reimbursement of approximately 1/3 of what we spend. We need to spend approximately \$400,000 to receive a 1/3 reimbursement of these expenses by September of 2026. We were anticipating performing this work during the Summer of 2026. To have the funding necessary for both paving and fire code-related improvements, we would need to reallocate approximately \$120,000 of the \$425,000 of capital currently set aside for pickleball courts.

Ambulance Reimbursement

The reimbursement of the billings for emergency services is segregated into a separate fund and expenditures from this fund must be spent on fire department. This fund is used to make capital purchases for new trucks, rescue boat and other capital needed by the fire department. It is anticipated that a new purchase of a vehicle for the Chief will be made by this fund and the SUV he currently drives will be passed along to the Building Official and the Tax Assessor for use in inspecting property, etc. The current vehicle, a former police vehicle, is not an SUV and is not suitable for navigating certain areas within the town, especially job sites

QUESTION: Is the Budget Committee Secretary a PAID or a VOLUNTEER Position?

9/25 Per Andrew Rhyne "maureen is doing it as a volunteer"

I think we should be paying her for her time, but that is up to her.
